

Please do not impose any laws that will lessen Indiana's no call list. I used to get 5-6 phone calls a day and many of them would be automatically dialed so when I picked up they were not there because someone else had picked up first. That is so irritating and rude! I hate the time I have to take to say no to all the phone solicitors. We run a company out of our home too so phone time is at a premium. Send a message some other way. Indiana's no call list is superb! Government finally works the way they said it was going to! Thank you Indiana!
